

The wisconsin no-call law has had a powerfully positive effect in my busy life--do not preempt it with federal law! Wisconsin's is a great law and easy to use thanks to DATCP WI. Since joining the WI no call list, I get virtually no vendor calls at home--calls that used to cut into my sparse family time as a solo working mom and greatly increase my daily stress. I am too busy for vendor calls. If the no call law is weakened, I may be forced to pay for an unlisted number and somebody somewhere will pay with my vote.
